Any news on the status of expenditures and the need to use 1992 dollars to meet our obligations?

9/17/92 *Lance*

I met yesterday with Chuck, Harold and Bob Pages to discuss the program. VPI is being asked to re-write the proposal. I have alerted Bob and Harold as to your interest in deferring payment. They will figure as to the deployment of construction allocated funds to cover expenses required for this year under any new proposal received.
